

IMPORTANT NOTICE:

refunds to appear on March bills

On July 31, 2008 Minnesota Energy Resources filed a request with the Minnesota Public Utilities Commission (MPUC), to increase natural gas rates. State law allowed Minnesota Energy Resources to collect an interim (temporary) rate increase while the MPUC considered our rate request. Those interim rates went into effect on October 1, 2008.

The final, approved rates for Minnesota Energy Resources became effective on January 1, 2010 at a rate lower than the interim rates that had been in effect since October 1, 2008. Therefore, you are being refunded a portion of the interim increase, with interest, based on your actual usage during the interim period. You will see that refund as a credit on your March bill.
