# Residential Rebate Program

How would you like to receive a rebate for up to **\$350\*** for installing a new gas furnace? Or, get a **\$50** rebate for purchasing a front loading, ENERGY STAR-rated clothes washer? Not only do you get the rebate, you'll reduce energy use and **lower your monthly bills**.

\*Based on 95% Annual Fuel Utilization Efficiency or greater.  
Rebate lessens as AFUE drops.

It's part of Minnesota Energy Resources' **Residential Rebate Program**. Visit our website for details, rebate application, and appliance qualifications. Also get tips to **save you money** right now. Try this one: Replacing or cleaning your furnace filter monthly improves efficiency and can help save between 2% and 5% of your winter energy costs.
