

### Applying for your rebate is easy!

Review the checklist below, complete, print, sign the application, and submit.

#### Checklist for completing your application

- Read** the terms and conditions to determine if you are eligible for a rebate.
- Verify** the equipment you install meets the specifications and equipment or service guidelines. All products require proof of purchase and may require additional documentation depending on the equipment installed. See proof of purchase requirements.
- Purchase and install** qualifying equipment or service. The rebate application must be received within 60 days of installation. Work with your contractor to complete and submit the application.
- Complete** steps 1-6 of the application.
- Print, sign and date** the application.
- Mail** your completed application and documentation.
- Keep** a copy for your records.

### Mail:

**Mail:** Minnesota Energy Resources  
P.O. Box 311  
Hockessin, DE 19707

### Here's what you'll need to get started:

- Must be an active Minnesota Energy Resources natural gas customer
- Minnesota Energy Resources account number
- Customer and contractor contact information
- Proof of purchase
- Additional equipment or service documentation (if required)

### Proof of purchase requirements:

**Retailer/contractor dated receipt or invoice must be attached and reflect the product(s) and or service(s) listed on the application and must include:**

- Retailer/contractor name, address and phone number
- Customer name
- Installation address
- Product(s) or service(s) details including:
  - Quantity
  - Manufacturer
  - Model number
  - Purchase price for each product or service
  - Installation costs (*if applicable*)
  - Installation or service date (*if installed by contractor*)

**We cannot process your application without proof of purchase that contains all information specified above.**

**If information is missing, application will be returned.**

### Need help?

Please call us at: 866-872-0052, option 2  
Email: [merc@appliedenergygroup.com](mailto:merc@appliedenergygroup.com)

Your rebate check will be mailed approximately four to six weeks after we receive a completed, eligible application including all required documentation.

### General terms and conditions

This program offers financial incentives for the purchase and installation of new natural gas equipment. Applications will be processed on a first-come, first-served basis. To qualify for rebates, an applicant must meet the following eligibility requirements:

- Be a current commercial Minnesota Energy Resources customer or property owner for the installation address associated with the account number provided. Furthermore, the equipment and/or measures installed and rebated must be installed at the property associated with this account number and must reduce use of natural gas energy.
- For equipment rebates, all equipment must be new. Refurbished or homemade systems are not eligible.
- To avoid delay, a final, itemized receipt for all material and labor related to the equipment and installation must be attached to this rebate application. Estimates and proposals will not be accepted, unless attached to receipt reflecting the identical amount.
- All applications must be received within 60 days of installation.
- Where applicable, energy efficiency ratings must comply with those listed in the Air-Conditioning, Heating and Refrigeration Institute (AHRI) Directory for space and water heating equipment. Ratings can be found by model number at [www.ahridirectory.org](http://www.ahridirectory.org). Submitting an AHRI or ENERGY STAR certificate with your application and invoice is highly recommended. The AHRI list of qualifying equipment is dynamic and changes frequently.
- We reserve the right to request proof of payment. This can be either a credit card receipt or statement showing the charges paid to your contractor, or a copy of the front and back of a cashed check made out to your contractor and showing the payee name, date and amount.
- Rebate checks will be made payable to customer or property owner shown on receipt. This must match the customer or property owner of record. Installers or contractors are not eligible to receive their customer's rebates.
- Participants understand they are not eligible to receive a rebate for this improvement earned under a different Minnesota Energy Resources program. Only one rebate per piece of equipment is permitted.
- If more than one measure was installed, receipt must itemize costs for each measure.
- This program is subject to regulatory rules and orders. Minnesota Energy Resources reserves the right to change any portion of this program or to end this program without notice.
- All projects must comply with applicable federal, state and local laws and regulations, including building codes.
- Minnesota Energy Resources is not responsible if the dealer does not provide accurate information about the amount of a rebate or equipment eligibility. It is the responsibility of the customer to ensure that the program requirements are met.

### Misrepresentation

Making false statements on any Minnesota Energy Resources application is punishable by law. Any person who knowingly files an application containing materially false information or who purposely conceals information commits a fraudulent act that subjects such person to criminal and civil penalties. Minnesota Energy Resources shall have the right to recover payments made in reliance on fraudulent or misrepresented information. This section shall not limit other remedies that may be available for the filing of false or fraudulent applications.

### Verification

Incomplete applications will be delayed. After approval, please allow four to six weeks for delivery of the rebate check. Minnesota Energy Resources reserves the right to inspect and verify any work before and/or after issuing rebates.

### Tax information

Rebates may be subject to federal and/or state income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. Minnesota Energy Resources is not responsible for any tax consequences of the Minnesota Energy Resources rebate program.

### Disclaimer

Minnesota Energy Resources does not guarantee that installation of improvements for rebates will result in reduced energy usage or demand, or in cost savings. The Customer will hold harmless Minnesota Energy Resources and its officers, directors, shareholders, agents, employees, and representatives from all claims, liabilities, fines, interest, costs, expenses, and damages incurred by the Customer, for any damage, injury, death, loss or destruction of any kind to persons or property, to the extent the damage, injury, death, loss or destruction arises out of or is related to the conduct, negligence, willful misconduct, misrepresentation, breach of warranty or other breach of this rebate form on the part of Minnesota Energy Resources.

# Commercial and industrial boiler heating system and components rebate application

## STEP 6 Equipment information

Please complete all information for the installed equipment for which you seek a rebate. Required information **must** be completed and submitted as part of application to be eligible for a rebate.

Please reference all rebate requirements prior to installation to ensure eligibility.

Make a separate entry for each measure installed. If more space is needed, please photocopy this form and submit with the application.

### Rebate minimum efficiency requirements

Equipment	Rebate	Maximum rebate
<b>Hot water boiler system</b>		
85% to 89.9% AFUE (< 300,000 Btu/hr input)	\$1,200 per MMBtu/h input	No maximum
85% to 89.9% thermal efficiency (300,000 Btu/hr or greater input)		
<b>Hot water boiler system</b>		
90% AFUE or higher (< 300,000 Btu/hr input)	\$2,500 per MMBtu/h input	No maximum
90% thermal efficiency or higher (300,000 Btu/hr or greater input)		
<b>Steam boiler system</b>		
83% AFUE or higher (< 300,000 Btu/hr input)	\$750 per MMBtu/h input	No maximum
83% thermal efficiency or higher (300,000 Btu/hr or greater input)		
<b>Other boiler heating system components and services</b>		
Continuous modulating burner (retrofit or upgrade only)*	25% of equipment cost	\$15,000 per burner
O2 trim control	25% of cost	\$5,000
Linkageless control	25% of cost	\$5,000
Vent damper	50% of equipment cost	\$500 per boiler
Boiler outdoor air reset control (retrofit or upgrade only)*	100% of equipment cost	\$150 per control system
Boiler cut-out control	100% of equipment cost	\$150 per control system
Pipewrap (R-3 or higher) for boiler heating systems**	\$2.50 per foot, minimum of 10 ft	No maximum
Electronic programmable setback**	50% of cost	\$25
Wi-Fi enabled thermostat	50% of cost	\$50
Advanced thermostat***	50% of cost	\$100

AFUE = Annual Fuel Utilization Efficiency

\* Modulating burner and outdoor air reset control rebates are not available for new condensing boilers. Must be 5:1 turn down ratio or higher.

\*\* New construction not eligible.

\*\*\* Automatic programming based on occupancy. Please check our website for list of current eligible models.

### Other requirements

- Make and complete model number must be provided to qualify for advanced thermostat rebates.
- Original UPC code from box must be attached to the application form if self-installed.
- If you are making improvements to an existing boiler, please provide details about the existing boiler on page 5.
- A minimum of 10 linear feet of pipewrap must be installed to qualify for a rebate. Pipewrap must be a minimum of R-3 or higher.

# Commercial and industrial boiler heating system and components rebate application (continued)

**New boiler or existing boiler to be modified:**

	New or existing boiler	System type	Manufacturer	Model number	Serial number	Boiler size (Btu/hr)	Boiler efficiency (%)	Equipment cost
Boiler 1	<input type="checkbox"/> New <input type="checkbox"/> Existing	<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS						
Boiler 2	<input type="checkbox"/> New <input type="checkbox"/> Existing	<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS						
Boiler 3	<input type="checkbox"/> New <input type="checkbox"/> Existing	<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS						

**Boiler system component rebate calculation**

Boiler system component	Manufacturer	Model number (must be on invoice)	Quantity	Equipment cost (and install costs)	Rebate	Maximum rebate	Total rebate
Continuous modulating burner (retrofit or upgrade only)					25%*	\$15,000	
O2 trim control					25%	\$5,000	
Linkageless control					25%	\$5,000	
Vent Damper					50%*	\$500	
Boiler outdoor air reset control (retrofit or upgrade only)					100%*	\$150	
Boiler cut-out control					100%*	\$150	
Electronic programmable setback					50%	\$25	
Wi-Fi enabled thermostat					50%	\$40	
Advanced thermostat**					50%	\$100	
	R-Value	Linear feet (minimum of 10)		Improvement cost (and install costs)	Rebate		Total rebate
Pipewrap for boiler systems (minimum of R-3)					\$2.50 per foot	No max	

\* Percentage of equipment cost only.

\*\* Automatic programming, based on occupancy. Please check our website for current eligible models.

Make a separate entry for each item. If more space is required, please copy this form and attach with your application.
