

### Applying for your rebate is easy!

Review the checklist below, complete, print, sign the application, and submit.

#### Checklist for completing your application

- Read** the terms and conditions to determine if you are eligible for a rebate.
- Verify** the equipment you install meets the specifications and equipment or service guidelines. All products require proof of purchase and may require additional documentation depending on the equipment installed. See proof of purchase requirements.
- Purchase and install** qualifying equipment or service. The rebate application must be received within 60 days of installation. Work with your contractor to complete and submit the application.
- Complete** steps 1-6 of the application.
- Print, sign and date** the application.
- Mail** your completed application and documentation.
- Keep** a copy for your records.

### Mail:

**Mail:** Minnesota Energy Resources  
P.O. Box 311  
Hockessin, DE 19707

### Here's what you'll need to get started:

- Must be an active Minnesota Energy Resources natural gas customer
- Minnesota Energy Resources account number
- Customer and contractor contact information
- Proof of purchase
- Additional equipment or service documentation (if required)

### Proof of purchase requirements:

**Retailer/contractor dated receipt or invoice must be attached and reflect the product(s) and or service(s) listed on the application and must include:**

- Retailer/contractor name, address and phone number
- Customer name
- Installation address
- Product(s) or service(s) details including:
  - Quantity
  - Manufacturer
  - Model number
  - Purchase price for each product or service
  - Installation costs (*if applicable*)
  - Installation or service date (*if installed by contractor*)

**We cannot process your application without proof of purchase that contains all information specified above.**

**If information is missing, application will be returned.**

### Need help?

Please call us at: 866-872-0052, option 2  
Email: [merc@appliedenergygroup.com](mailto:merc@appliedenergygroup.com)

Your rebate check will be mailed approximately four to six weeks after we receive a completed, eligible application including all required documentation.

### General terms and conditions

This program offers financial incentives for the purchase and installation of new natural gas equipment. Applications will be processed on a first-come, first-served basis. To qualify for rebates, an applicant must meet the following eligibility requirements:

- Be a current commercial Minnesota Energy Resources customer or property owner for the installation address associated with the account number provided. Furthermore, the equipment and/or measures installed and rebated must be installed at the property associated with this account number and must reduce use of natural gas energy.
- For equipment rebates, all equipment must be new. Refurbished or homemade systems are not eligible.
- To avoid delay, a final, itemized receipt for all material and labor related to the equipment and installation must be attached to this rebate application. Estimates and proposals will not be accepted, unless attached to receipt reflecting the identical amount.
- All applications must be received within 60 days of installation.
- Where applicable, energy efficiency ratings must comply with those listed in the Air-Conditioning, Heating and Refrigeration Institute (AHRI) Directory for space and water heating equipment. Ratings can be found by model number at [www.ahridirectory.org](http://www.ahridirectory.org). Submitting an AHRI or ENERGY STAR certificate with your application and invoice is highly recommended. The AHRI list of qualifying equipment is dynamic and changes frequently.
- We reserve the right to request proof of payment. This can be either a credit card receipt or statement showing the charges paid to your contractor, or a copy of the front and back of a cashed check made out to your contractor and showing the payee name, date and amount.
- Rebate checks will be made payable to customer or property owner shown on receipt. This must match the customer or property owner of record. Installers or contractors are not eligible to receive their customer's rebates.
- Participants understand they are not eligible to receive a rebate for this improvement earned under a different Minnesota Energy Resources program. Only one rebate per piece of equipment is permitted.
- If more than one measure was installed, receipt must itemize costs for each measure.
- This program is subject to regulatory rules and orders. Minnesota Energy Resources reserves the right to change any portion of this program or to end this program without notice.
- All projects must comply with applicable federal, state and local laws and regulations, including building codes.
- Minnesota Energy Resources is not responsible if the dealer does not provide accurate information about the amount of a rebate or equipment eligibility. It is the responsibility of the customer to ensure that the program requirements are met.

### Misrepresentation

Making false statements on any Minnesota Energy Resources application is punishable by law. Any person who knowingly files an application containing materially false information or who purposely conceals information commits a fraudulent act that subjects such person to criminal and civil penalties. Minnesota Energy Resources shall have the right to recover payments made in reliance on fraudulent or misrepresented information. This section shall not limit other remedies that may be available for the filing of false or fraudulent applications.

### Verification

Incomplete applications will be delayed. After approval, please allow four to six weeks for delivery of the rebate check. Minnesota Energy Resources reserves the right to inspect and verify any work before and/or after issuing rebates.

### Tax information

Rebates may be subject to federal and/or state income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. Minnesota Energy Resources is not responsible for any tax consequences of the Minnesota Energy Resources rebate program.

### Disclaimer

Minnesota Energy Resources does not guarantee that installation of improvements for rebates will result in reduced energy usage or demand, or in cost savings. The Customer will hold harmless Minnesota Energy Resources and its officers, directors, shareholders, agents, employees, and representatives from all claims, liabilities, fines, interest, costs, expenses, and damages incurred by the Customer, for any damage, injury, death, loss or destruction of any kind to persons or property, to the extent the damage, injury, death, loss or destruction arises out of or is related to the conduct, negligence, willful misconduct, misrepresentation, breach of warranty or other breach of this rebate form on the part of Minnesota Energy Resources.

# Commercial and industrial boiler tune-up rebate application

## STEP 6 Service information

Please complete the sections below and **attach an invoice or work order** for services rendered. Required information **must** be completed and submitted as part of application to be eligible for a rebate. Please reference all rebate requirements prior to service to ensure eligibility.

Make a separate entry for each boiler serviced. If more space is needed, please photocopy this form and submit with the application. Work **must** be performed by licensed HVAC technician.

Service	Maximum rebate	Rebate
Gas fired boiler tune-up (boiler size ≥ 1 million Btu/hr input)	\$500 per boiler	50% of cost*
Gas fired boiler tune-up (boiler size 300,000 - 999,999 Btu/hr input)	\$250 per boiler	50% of cost*
Gas fired boiler tune-up (boiler size < 300,000 Btu/hr input)	\$50 per boiler	\$50, not to exceed 100% of cost*

\*Parts may include miscellaneous materials required to perform tune-ups but does not include equipment repair or replacement. Transportation charges may be included.

## Other requirements

- Service agreements provided by HVAC dealers qualify. Attach a copy of service contract in addition to the work order or invoice for services rendered. Please include a cost estimate or breakout of the annual contract amount attributable to each boiler tune-up.
- Existing boilers are eligible for tune-up rebate every 2 years.
- Combustion analysis test results for tune up on boilers 300,000 Btu/hr and larger are required and must be included with this application.

## Natural gas boiler system tune-up requirements (to be completed by HVAC technician)

- |   |  |
|---|--|
| <input type="checkbox"/> Measure tune-up combustion efficiency using an electronic flue gas analyzer. (Include copies of all tune-up combustion analyzer test results for boilers ≥ 300,000 Btu/hr.)* | <input type="checkbox"/> Clean and inspect burner nozzles.                             |
| <input type="checkbox"/> Adjust air flow and reduce excessive stack temperatures.   | <input type="checkbox"/> Check for proper venting.                                     |
| <input type="checkbox"/> Adjust burner and gas input, manual or motorized draft control.  | <input type="checkbox"/> Complete visual inspection of system piping and installation. |
| <input type="checkbox"/> Clean burners, combustion chamber and heat exchanger surface, when weather or operating schedule permits.  | <input type="checkbox"/> Check safety controls.  |
|   | <input type="checkbox"/> Check adequacy of combustion air intake.                      |

\*Combustion analysis is not required for tune-ups for boilers < 300,000 Btu/hr.

## Boiler information (Individual boilers are eligible for a tune-up rebate once every two years)

	Manufacturer	Model number	Serial number	Boiler size (Btu/hr)	System type	Cost of labor and parts
Boiler 1 (not burner)					<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS	
Boiler 2 (not burner)					<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS	
Boiler 3 (not burner)					<input type="checkbox"/> HW <input type="checkbox"/> LPS <input type="checkbox"/> HPS	

HW = hot water, LPS = low pressure steam, HPS = high pressure steam

Required building information Square footage: \_\_\_\_\_ Number of floors: \_\_\_\_\_
