

Food service equipment rebates

Installing energy-efficient technology is a smart way to lower your energy bills. Qualifying high-efficiency commercial food service appliances in new construction or replacement projects are eligible for rebates.

To apply for a rebate, download and fill out the **food service equipment rebate application**. Funding is limited and can change or end at any time. Applications will be processed on a first-come, first-served basis.

For additional questions on this program or to download an application, visit minnesotaenergyresources.com or call us at **866-872-0052, option 2**.
