

Furnace heating systems and components rebates

Installing energy-efficient technology is a smart way to lower your energy bills. Qualifying high-efficiency space heating equipment installed in new construction or replacement projects are eligible for rebates.

To apply for a rebate, download and fill out the **furnace heating system and components rebate application**.

Funding is limited and can change or end at any time. Applications will be processed on a first-come, first-served basis.

For additional questions on this program or to download an application, visit minnesotaenergyresources.com, call us at **866-872-0052, option 2**, or email us at merc@appliedenergygroup.com.

Rebates and minimum efficiency requirements

Measure	Minimum efficiency	Rebate
Natural gas furnace	92% AFUE	\$250
Natural gas furnace	95% AFUE	\$350
Natural gas furnace	97% AFUE	\$500
Low intensity infrared heater		\$250
Indirect-fired condensing roof top unit, $\geq 225,000$ Btu/hr	90% TE	\$2.40 per 1,000 Btu/hr input
Condensing combo pack (single package vertical unit)	90% TE or AFUE	\$140
Condensing combo pack (single package vertical unit)	95% TE or AFUE	\$165
Condensing unit heater	92% TE	\$350
Electronic programmable setback***	Customer programmed	\$40*
Wi-Fi enabled thermostats	Customer programmed	\$40*
Advanced thermostat	Automatic programming based on occupancy**	\$100*

AFUE: Annual Fuel Utilization Efficiency; TE: Thermal Efficiency

* Rebate amount is 50% of total cost, up to maximum rebate amount listed above.

Please reference all rebate requirements prior to installation to ensure eligibility.

** Automatic programming based on occupancy. Please check our website for current eligible models.

*** New construction not eligible.
