

Insulation rebates for businesses

By improving the insulation of your commercial or industrial building, you can save on your heating and cooling costs all year round while enhancing occupant comfort. The rebates provided by Minnesota Energy Resources help businesses with natural gas heating increase insulation levels in existing buildings.

To apply for a rebate, download and fill out the **insulation rebate application**. Funding is limited and can change or end at any time. Applications will be processed on a first-come, first-served basis.

For additional questions on this program or to download an application, visit minnesotaenergyresources.com, call us at **866-872-0052, option 2**, or email us at merc@appliedenergygroup.com.

Rebates and minimum efficiency requirements

Measure	Minimum efficiency		Rebate
	Pre-installation	Post-installation	
Attic insulation	Existing insulation cannot exceed R-15	Minimum of R-38	\$0.30 per sq. ft.
Roof insulation	Existing insulation cannot exceed R-15	Minimum of R-20	\$0.30 per sq. ft.
Sidewall insulation	Existing insulation cannot exceed R-9	Minimum of R-15	\$0.20 per sq. ft.

Rebate is based on and shall not exceed 100% of the total cost (material and installation). Please reference all rebate requirements prior to installation to ensure eligibility.
