

# In-Home Energy-Saving Audits

If you wish to solve comfort problems or reduce your energy bills, Minnesota Energy Resources can help. An energy auditor will make an in-home visit and provide energy efficiency suggestions to **improve the comfort**, durability, safety and affordability of your home.

Minnesota Energy Resources offers **two levels of audits**. Which audit is best for you?

For some homes, our **Standard Audit** is sufficient. For others, there can be significant benefit in having a **Performance Audit** completed. If you notice two or more of the following in or around your home, our Performance Audit may be for you:

- Ice dams on the roof.
- Moisture or frost in the attic.
- Mold or moisture spots on interior walls.
- Condensation on your windows.
- Stains around ceiling exhaust fan(s).
- Cold spots in areas of the house.
- Inadequate or older insulation.

**Request an audit by calling 800-376-0517.** For additional questions and complete audit details, or to download an application, please visit [minnesotaenergyresources.com](http://minnesotaenergyresources.com) or call us at **866-872-0052**.

## What Does Each Audit Provide?

Description	Standard \$50 Co-pay	Performance \$125 Co-pay
