

# Heating system rebates for existing homes

Minnesota Energy Resources' **Heating System Rebates** provide rebates to customers who **upgrade to a high efficiency** natural gas furnace or boiler, or install a programmable or advanced thermostat. Not only will you save on your upgraded system, but you'll continue to save with reduced natural gas use year after year. We recommend that you work with a heating dealer of your choice to determine the best system for your home.

To apply for a rebate, download and fill out the **heating system rebate application**.

Funding is limited and can change or end at any time. Applications will be processed on a first-come, first-served basis.

For additional questions or to download an application, please visit [minnesotaenergyresources.com](http://minnesotaenergyresources.com) or call us at **866-872-0052, option 1**.

## Rebates and minimum efficiency requirements

Equipment	Minimum efficiency	Rebate
Natural gas furnace	92% AFUE	\$250
Natural gas furnace	95% AFUE	\$350
Natural gas furnace	97% AFUE	\$500
Natural gas furnace for mobile homes	92% AFUE	\$200
Natural gas boiler	90% AFUE	\$200
Integrated natural gas space and water heating system	92% AFUE	\$250
Advanced thermostat or Wi-Fi enabled	Advanced analytics or Wi-Fi enabled	\$50*
Electronic programmable setback thermostat	Customer programmed	\$25*
Heat recovery ventilation (HRV), whole home, where no HRV previously existed	SRE above 65% CFM 75	\$400

There is a limit of one qualifying thermostat per natural gas service address.  
AFUE: Annual Fuel Utilization Efficiency

\* Rebate amount is 50% of total improvement cost, up to maximum rebate amount listed above.
