

Low Income Weatherization Assistance Program

Enjoy a more comfortable home and lower energy bills after energy-saving weatherization improvements. These services are **free for eligible homeowners and renters**.

The Weatherization Assistance Program provides free home energy upgrades to income-eligible homeowners and renters to help save energy and improve comfort. The Weatherization Assistance Program works closely with its companion program, the Energy Assistance Program, to help permanently reduce the energy bills for low-income Minnesotans.

Minnesota Energy Resources provides funding to relevant Community Action Program (CAP) agencies for the administration of this program. The improvements made at each home are determined by the CAP agencies based on the specific needs of the home. If it is determined that you qualify, these services and improvements are provided at no cost to you.

The following are examples of improvements that may be eligible for funding by Minnesota Energy Resources:

- A standard energy audit
- Blower door test and air sealing
- Side wall insulation
- Attic insulation
- Tuck under garage ceilings, foundations, crawl spaces and rim joist insulation
- Outdoor venting of dryers and exhaust fans
- Caulking and weatherstripping
- Duct and pipe insulation in unfinished areas
- Emergency heating system and water heating equipment replacement
- Programmable thermostats
- Showerheads and aerators
- CO detectors

Who is eligible?

Minnesota Energy Resources customers who use natural gas as a primary fuel for space heating and who also meet specific income guidelines. Household income must be below 200 percent of federal poverty income guidelines.

Apply today!

To find out if you qualify for the Low Income Weatherization Assistance Program, please contact the CAP agency in your area.
